The Bassano Board of Trade have announced that the date of their first dance to be held in the Curling rink will be June 11th. Darby and His Plaza Orchestra will supply the music.

## Countess Notes

Mr. and Mrs. R. V. Ferguson left Sunday for their home in Texas. They spent a month visiting with relatives and looking after their farm interests.

The Girls' Club held their regular meeting at the Countess House last Wednesday. Thirteen members were present. Arrangements were made for the dance which was held on May 28th. All who helped to make this dance a success are very heartily thanked by the girls.

Mr. and Mrs. J. McRobbie and family and Mrs. W. H. Haves visited Sunday at the G. Kuhl home at Duchesne.

Countess hall team lost their first game of the season at Makepeace. They played a poor game, making frequent errors, which proved costly to them. The score was 4-4 at the end of the eighth inning and the tie was broken in the ninth.

Mrs. George McIntosh and Peggy and Miss Beata Williams were guests on Sunday.

## W.I. Notes

The regular meeting of the Bassano W. I. was held at the home of Mrs. Grant, Tuesday, June 1st. Mrs. Bacon President in the Chair. Mrs. Muir of Chancellors favored the members with a visit. Discussing the possibility of this branch going in with the Glenochin Constituency was not favored by the members and a motion was passed that we carry on as we are until the end of the year.

Mrs. Bacon, delegate to the W. I. Convention held at Calgary on May 24, gave her report.

A pleasant surprise to the members was the presence of their Honorary President, Mrs. E. Maurer, who explained the kind of work done by the Women's Institute, also the starting of the Bassano Branch in the spring of 1934, the first meeting being held in C.P.R. box car.

A delicious tea was served by the hostess and the meeting closed by singing God Save the King.

The next meeting will be held at the home of Mrs. G. Morrison.

Man is the mirror of all things, the hand is the instrument of instruments and the mind is the form of forms.—Aristotle.

## Prize Winners at the Interscholastic Track Meet Held Saturday

Boys' Grand Aggregate Won by Wilfred Ridley of Strathmore. Girls' Grand Aggregate Won by Shirley Taylor Arrowwood and Eloise Cote, Carlsland

Approximately three hundred school children from all parts of the district gathered in Bassano on Saturday May 28th, to take part in the Bow Valley Interscholastic Track and Field Association Meet.

While the day was somewhat cool and cloudy, good sized crowd was present to witness the different contests.

The teachers from the schools represented took charge of the affairs in a very capable manner. Very little time was wasted between events, and with the assistance of P. Ubertino's Public Address system, all were able to hear the announcements of the coming events.

The district was divided into three sections, each awarded a ribbon as a distinguishing mark.

The Grand Aggregate cups, given to the boy and girl with the most number of points, were won by Wilfred Ridley of Strathmore, with 14 points, and Shirley Taylor of Arrowwood and Eloise Cote of Carlsland. The latter girls were tied for this honor with 7 points each, so one cup will be given each girl.

Following is a complete list of prize winners in each section of the Meet.

## JULY 1st AT BASSANO

The Committee in charge of the Bassano Sports Day on July 1st is Working Hard to Make the 1937 Event the Best Yet.

## Tennis Notes

The Tennis Club plans to visit to Strathmore Sunday to play a series of matches with that town. The young set seem to be taking to tennis in a big way, but the adult members seem to lack the necessary enthusiasm. The courts are in wonderful shape. Ju. now and it seems a pity they are not taken full advantage of.

## Softball Notes

The Glenochin Redwings played a return game against the Bassano Girls Softball Team at Bassano on Sunday. Bassano lost the first game in Glenochin by a 11-4 score but won this one by a 31-3 score. Three home runs were made, one by Morrow of Glenochin and one each by P. Peterson and D. Beeher for Bassano. Stellar pitching by V. Bacon greatly aided the locals in winning from the Redwings.

## Altar Society Notes

The Ladies' Altar Society met at the home of Mrs. T. J. Maguire on Wednesday afternoon and held a very interesting meeting. Plans were made for a Strawberry, ice cream and cake social to be held in the near future, date and place to be announced later. A Sewing Circle was also formed for the purpose of making articles to be sold in the Fall. Meetings of this circle will be held weekly. Next meeting will be held at the home of Mrs. J. Ryan on Wednesday afternoon. Mrs. Ryan will be pleased to welcome all members of the Society. Times 2:30 to 5:00.

## Crowfoot Notes

A light rain visited the district Friday which was welcomed.

Mr. and Mrs. Will Sloan and Alice Forsythe were Thursday callers on Mrs. Hefflebower.

The backwash was quite an interesting place Sunday when Countess and Makepeace played an exciting game of ball. Both teams put up a good game, but Makepeace won with a score of 5-4. The line-ups were: Countess—Mrs. Landis, S. Miller, R. Burrows, L. Ross, P. Ferguson, A. Candler, E. Osterberg, R. Ferguson and R. Ross; for Makepeace—Moffat, R. Sandquist, A. Sandquist, S. D. P. Holton, P. Bulger, V. Campbell, H. Holton and H. Forsythe.

Mr. and Mrs. Wm. Weeks have as their guest, Mrs. Weeks' brother from Ontario.

Mrs. Pennwick, Mrs. Frank Redburne and Mrs. Weeks were callers at the Campbell home Monday afternoon.

Miss Edith Smith spent the week-end at her home in Calgary.

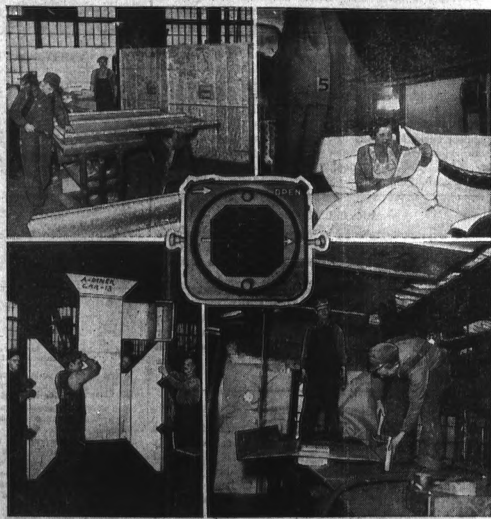

Reports show some part of the district is infested with young grasshoppers and bait is already being used. Other parts have reported large spots of several acres being taken by cutworms. Some farmers are reseed—seeds too had when we are all are needing a crop so bad. A good soaking rain would now assist very materially.

Everyone is talking about the Old Fashioned Box Social to be held at the Makepeace School Friday night.

Mr. Andy Jackson and Bert Ross drove to Calgary on Monday.

Mr. Chas. Robbours, Mrs. Frank Robbours, Bill, Tom and Mary motored to Cluny Sunday evening to be guests of Mr. and Mrs. Jones, at a birthday dinner in honor of their daughter, Mable.

## Canadian Pacific Extends Air-Conditioned Service

The Canadian Pacific Railway Air-Conditioned Service at Montreal are humming with activity these days as the Company continues its comprehensive programme of air-conditioning. In the current year, air-conditioning equipment will be added to 134 cars, including standard sleepers, dining cars, tourist sleepers, parlor cars, and day coaches, and these, in addition to the 130 cars air-conditioned in 1936, will permit a very considerable extension of air-conditioned service throughout the Dominion.

Provision is made by the 1937 programme to provide air-conditioned dining cars on all trains carrying air-conditioned sleepers or parlor cars, besides additional sleeping and parlor cars for use on trains between Montreal and Quebec, Montreal and Ottawa, Toronto and Ottawa, and trains 39 and 40 between Montreal and Saint John, N.B. Air-conditioning of tourist cars for use on the transcontinental trains between Vancouver and Montreal and Toronto is a new and interesting feature of the 1937 programme. This will supplement last year's service which allowed air-conditioned standard sleepers, compartment sleepers, bedroom and parlor cars to be used on transcontinental trains between Montreal, Toronto and Vancouver. The new service, which, as the above indicates, the individual can regulate the volume and direction of the flow of air.

## INTERSCHOLASTIC TRACK MEET

The initial track and Field Meet of the Bow Valley Interscholastic Track and Field Association held at Bassano last Saturday was an eminent success from every angle, except for the weather.

Representing schools from Brooks on the East to West of Strathmore, nearly three hundred boys and girls of all ages and sizes met at Bassano to test their abilities on the track and in the field. Many parents and teachers accompanied the children.

It is not probable that any startling records were established as the day was really too cold to permit anyone to display his or her best, but there were many contestants who showed real and prospective ability.

The pole-vaulting contest drew a considerable amount of attention, with our local boys leading the way, due perhaps to the fact that other contestants had not heretofore used a regulation take-off, which troubled them somewhat.

In the longer runs, experience was noticeably absent in many cases, but in one case in particular, a half-mile race, one of the contestants showed plenty of intelligence, in refusing to be dismayed or decoyed by a formidable, early lead established by an opponent, who ran "all out" for three-quarters of the way and then "died."

To the Officers of the Association and the other teachers who made this meet possible too much praise cannot be given. The details of the organization were well-nigh perfect, the credit for which must be given to Mr. Whitehorn.

This fall, District Meets will be held in the three main centres; Brooks for the east, Gleichen for the central, and Strathmore for the west, to determine winners to compete in next year's annual meet. It is to be hoped that nothing will be allowed to prevent the continuance of these Meets, which mean so much to the youngsters in the way of developing good, clean, healthy bodies.

## HOME IMPROVEMENT PLAN APPLIES TO THE FARMER

Through the Home Improvement Plan, the Dominion Government has now made it possible for the farmer to carry out needed repairs and improvements to his home and farm buildings, notwithstanding the fact that he may not have the funds required immediately available. This has been made possible through the co-operation of the banks in providing the farmer who desires to improve his property with the necessary money at very reasonable rates of interest. No endorsement or other security is required by the bank, the promissory note of the borrower being sufficient. The amount borrowed may be paid back in equal monthly instalments or in suitable instalments for such other periods as may be necessary to fit the condition of the individual borrower. The maximum period for a loan of one thousand dollars or less is three years and for loans over one thousand dollars five years.

Any farmer desiring to take advantage of this opportunity to improve his property should consult a contractor, or a dealer in building materials, and obtain from him an estimate covering the additions or improvements desired.

With an estimate of the cost of the complete job to be done the farmer can then apply to his bank (or have his contractor or dealer apply for him) for a loan to cover the amount of the work estimated and authorized.

Every possible precaution has been taken to eliminate "red tape" and to facilitate the loan being easily obtained.

Canadian banks are ready to extend the loan to any farmer enjoying a good credit reputation or who can satisfy them of his ability to meet the modest regular payments required under the repayment schedule.

## MR. E. L. GRAY

By Saturday evening of this week, the farmers in the Eastern Irrigation District will know definitely if Mr. E. L. Gray, their manager, is going to become entangled in politics as leader of the Liberal Party.

According to all advice, Mr. Gray has consented to his name going before the Convention. If that is true, his decision would seem almost certain, in which event, the probabilities are that the E.I.D. will require a new manager sometime this summer, for we do not imagine that Mr. Gray could do justice to both in his usual capable manner, and would therefore have to resign as manager of the E.I.D.

## FAIR AND WARNER

The editor of a country newspaper received from a subscriber the query "Can you tell me what the weather is likely to be next week?" In reply he wrote: "It is my belief that the weather next week is likely to be very much like your subscription." The inquirer puzzled his head for an hour over what the editor was driving at, when finally he happened to think of the word "unsettled." He sent a cheque the next day—Warton, (Ont.) Echo.

## THE ALBERTA DUST BOWL

A contemporary reports that the dust was so bad in Medicine Hat the other day, that a citizen, looking up into the sky, saw a rather digging in it. "Like that while the seed is almost ALL IN, if the winds continue it will soon be ALL OUT." Nice work, Mr. McCrae.

## BOW RIVER WATER

Looking at the Bow River today, and remembering it's size not so very many years ago, one is led to wonder if it is gradually drying up, and what will be the ultimate fate of those depending on it for domestic and agricultural uses. It is a problem and an eventuality which should be faced and dealt with now.

## A SEA OF MILK

This milk produced on this country is usually enough to fill the British navy! It amounts to hundreds of millions of gallons. About one-quarter of this is used as milk for the remainder goes into cheese, butter and ice cream.

Milk is product of the teat of the plant, is the best and most extensively used of foods. When the milk is sucked from its mother's breast or the milk of goats, of the buffalo, or other mammals is used as food.

Dried milk and evaporated milk have become household names. A full grown "condensed" milk has a large proportion of sugar which must be considered if this article is to be used as a baby food. Milk contains about 87 per cent water and 13 per cent of dissolved substances.

The cells of one's body are tiny engines which must be supplied with fuel and water in order to perform their daily work. The proteins which we eat keep the cell engines in working order, the sugar supplies the fuel for them as it is readily burned and turned into energy. This fact must be remembered to the coal of the engine since they burn satisfactorily only in the fire already kindled by the sugar.

While milk is a fine food for children it is too bulky to be satisfactory as a sole food for adults. Its value is in supplementing other foods so as to correct their deficiencies.

Milk and the leafy vegetables make good the deficiencies of cereals, peas, beans, turnips, the potatoes, roots and meats. They are protective foods. The supplementary value of milk depends upon its calcium content, on the quantity of its protein and its fat and to some extent on its contained vitamins. The chief vitamins found in milk are those known as A and B.

The former is essential for both growth and maintenance. The fats of milk are the most important source of vitamin A in the diets of human beings.

It is probable that 90 per cent of this vitamin is removed in the process of skimming.

Lack of vitamin A in a given milk predisposes the child to infection. Vitamin C is found in cows' milk in proportion to the quantity of green feed he has eaten. Its value is in the prevention of scurvy.

In the use of cows' milk or that of other mammals as a food for children, there are at least two essentials: the milk must be modified to suit the needs of the child and it must be pasteurized or boiled in order to eliminate certain diseases liable to be carried in this fine article of food.

The SNAPSHOT GUILD  
VIEWPOINT IN LANDSCAPES

Now that nature has once more been adorned with the verdure of spring and a new season of outdoor picture taking has begun, it is appropriate to consider landscape pictures.

Good landscape subjects are, at least, easy to find. One can travel scarcely anywhere without encountering pleasing vistas of woods and fields, hills and valleys, stream and lake, country cottages, old farm houses, treacherous roads, flocks of browsing sheep, herds of cattle and all that makes for beauty and interest in landscape.

What should we do to capture these lovely scenes with our camera? Such views may seem easy to take as they meet the eye, but here, as in all photography, indiscriminate snapping usually results in junked composition. A little thought is little planning, a little effort, to make the picture—no merely to take it. This means care in selecting a viewpoint which makes the composition essential to the artistic picture. You cannot shoot on sight and be lucky every time.

Beginners are often attracted to any picture at all as long as it is clear. They are delighted merely to have obtained the correct exposure.

## HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA.

## MISSED TUBERCULOSIS

People may have tuberculosis and not know it. In other words, tuberculosis is often missed. Among the scientists who are admitted to hospitals for tuberculosis there are a good many who are what the doctors call "advanced" cases. What does that mean? Generally they have had tuberculosis a long time, but it has not been noticed. It has been missed.

It should not have been missed, but it was, and still is, in spite of all our work.

The late Dr. A. Stewart, one of the best authorities in Canada on tuberculosis, said that one hundred middle-aged men who had tuberculosis were studied and it was found out that on the average they had had the disease for eight years before they thought they were sick enough to go to the doctor.

They should have known sooner. Either the man has felt tired—tired all the time, tired when he awakened in the morning and tired all day—or else he has seemed to have lost energy and vim and initiative. He has seemed to "get into the game" as he used to.

Or else he has lost the good color he used to have. He used to be sunburned in the summer, but this summer he has been pale and good red blood which used to give him the color in his cheeks, is not as red or as good as it used to be.

Or else he has lost weight. His weight was about right last year, but he has lost five or ten pounds since then.

He has had a little short cough in the morning. He should be in just as irritation in his throat. Not at all. A cough that has lasted more than a month is a danger signal.

Spitting of blood—even a very little—even a trace—is not an early sign of it. It is an urgent sign and so is pain in the chest.

This sad statement is to have a periodical medical examination every year, including an X-ray chest film. If it is properly done, tuberculosis is not likely to be missed.

## Tid-Bits from the Kitchen

## Salads—

- Maidenside Salad—
- 1 cup cooked carrot chips
- 1 cup cooked potato cubes
- 1 cup cooked string beans
- 2 tablespoons finely chopped parsley

Shredded lettuce, French dressing. Arrange shredded lettuce on salad plates. Mix vegetables with French dressing. Put a spoonful on each plate and serve.

## DESTRUCTION

(By Bruce Cravall Bell, Husar)

Came baby Jove, whose laughter  
bright

Did flood our cot with rare delight:  
Sparkling eyes, smiles and sunny hair  
I caught their radiance everywhere.

Later, thy footsteps pitter-pat:  
Chubby arms about me, as I sat  
Before the hearth, in love were  
thru.

And sweet the happiness of dawn  
Thro' spring, then faded day, our lot  
The sweet has faded. A Juggernaut  
Whose drives, dashed, with WANNON  
Just

Roars on, O God! My Joy is dust.  
—Calgary Herald.

Each year conversation takes off  
another garment—David Seabury.  
It was the night club that discover-  
ed the relationship between game and  
effect.

Better to make a life than a living—  
—Abraham Lincoln.

Philosophy means being able to ex-  
plain why you are happy even when  
you are poor.

Here's what I've found about success:  
Five meals a day isn't good for you—  
Joseph Hergeshelmer.

To secure a contented spirit, measure  
your desires by your fortune, and  
not your fortune by your desires—  
Jeremy Taylor.

Returning to the farm may be a hard  
dose for some people, but that is  
where they are headed for eventually.  
—Henry Ford.

## Baseball Notes

In a game featured by many hits,  
the Bassano Baseball Club scored a  
victory over the Glen Ball Club on Sun-  
day afternoon by a 12-9 score. Bas-  
sano ran up a lead of nine runs in the  
first two innings, and seemed to have  
the game in the bag, but some work  
in the field brought the score close.  
The Bassano boys have got their dif-  
ficulties ironed out now and the boys  
are all set to put up a real exhibi-  
tion of ball. On Sunday they go to  
Glen for the return game and a red  
hot encounter is assured.

The battery for Bassano was Hayes,  
Connolly and Arrioso.

## Rex Battle, Famous Musician

One of Canada's best known  
musicians to seem here at  
Canada's leading hotel, the Royal  
York, in downtown Toronto. He  
is Rex Battle, leader of the Royal  
York Hotel concert orchestra.  
Battle plays daily at the hotel  
and is heard on regular coast-to-  
coast radio broadcasts. The pic-  
ture of Mr. Battle is from a por-  
trait recently done by Allan Berry.

and shows the maestro concentrat-  
ing on a difficult piano pas-  
sage. At the Royal York Hotel, the  
British Empire, Rex Battle's  
orchestra is a favorite among the  
guests, who gather in large num-  
bers at his concerts or listen him  
in on the individual radio in  
bedrooms throughout the hotel.  
The orchestra has spread its

name by playing for conventions  
that gather at the hotel from all  
over the continent. The Royal  
York's fine facilities for this type  
of entertainment attracted 75 con-  
ventions, totalling 4,000 dele-  
gates, up to the middle of March,  
while 45 others are scheduled to  
bring 110,000 delegates to the hotel  
from all over the country later  
in the year.
